Draft Planning Agreement

The Council, the Developer and the Part Landowner propose to enter into a Planning Agreement
under s7.4 of the *Environmental Planning and Assessment Act 1979 (Act)*.

Description of the Land to which the Planning Agreement Applies

The Planning Agreement applies to Lot 136 in Deposited Plan 869710 known as 174-178 Lang Street,
Kurri Kurri NSW, 2327 (Subject Land).

Description of Proposed Development

The Developer proposes to develop the Subject Land for the purposes of constructing a new
commercial premises.

Summary of Objectives, Nature and Effect of the Planning Agreement

The objective of the Planning Agreement is to provide a mechanism by which contributions towards
public purposes can be made in connection with the future development of the Subject Land to the
benefit of the community.

The public benefits include the improvement of public amenities, improvements to part of an existing
public road, construction of a new public road, and greater connectivity for the community.

Effect of the Planning Agreement

The Planning Agreement:

- enables the Developer to carry out the Proposed Development in a way that is practicable for
the Developer, while still ensuring connectivity and the provision of the contributions for a
public purpose,
- requires the Developer to provide the following contributions:
 - construction of a new laneway prior to the issue of a construction certificate;
 - dedication of the new laneway to Council prior to the issue of a construction
certificate;

- upgrades to an existing public laneway prior to the issue of a construction certificate; and
- public domain works to part of Barton Street, Kurri Kurri prior to the issue of an occupation certificate.
- is enforceable against the Developer by suitable means if there is a breach by the Developer, and
- is to be registered on the title to the Subject Land.

Where it is relevant to a development application, a consent authority must take into consideration a planning agreement (or any draft planning agreement) that a developer has entered into (or offered to enter into).

A planning agreement cannot impose an obligation on a planning authority to actually grant a development consent. A merit assessment of the proposed development must still be carried out.

Assessment of the Merits of the Draft Planning Agreement

The Planning Purposes Served by the Planning Agreement

The Planning Agreement promotes the following objects of the Act:

- promotes and co-ordinates the orderly and economic use and development of the Subject Land,
- promotes the good design and amenity of the built environment, and
- provides the increased opportunity for public involvement and participation in environmental planning and assessment of the Development.

The Planning Agreement also facilitates the implementation of Council's strategic plans.

How the Planning Agreement Promotes the Public Interest

The Planning Agreement will enable the utilisation of the development potential of the Subject Land, while requiring the Developer to make provision for public purposes. The Planning Agreement promotes the public interest because it will require the provision of public domain improvements, upgrades to an existing public laneway, and construction of a new laneway (to be dedicated to Council) that will benefit existing and future residents and workers in the area. These contributions will have a positive impact on the public and will provide for the social welfare of the community.

The contributions provided under the Planning Agreement are in addition to any monetary contribution that will ordinarily need to be made in relation to the Proposed Development under sections 7.11 or 7.12 of the Act.

The proposed contribution under the Planning Agreement is consistent with Council's strategic plans and policy documents.

How the Planning Agreement Promotes the Principles for Local Government Contained in Chapter 3 of the Local Government Act 1993

The Draft Planning Agreement promotes the principles for local government by:

- keeping the local and wider community informed about its activities,
- providing strong and effective representation, leadership, planning and decision-making,
- carrying out functions in a way that provides the best possible value for residents and ratepayers,

- working with others to secure appropriate services for local community needs, and
- acting fairly, ethically and without bias in the interests of the local community.

Whether the Planning Agreement Conforms with the Authority's Capital Works Program

Yes. The Planning Agreement provides for additional works to those identified in Council's current Capital Works Program, but those additional works relate to the development and will not affect Council's Capital Works Program.

Whether the Planning Agreement specifies that certain requirements must be complied with before a construction certificate, occupation certificate or subdivision certificate is issued

The Planning Agreement requires the construction and dedication of the new laneway, and upgrades to the existing public laneway to be completed prior to the issue of a construction certificate to build the commercial centre. Security for the public domain works in the form of a bank guarantee is also required to be provided to Council prior to the issue of a construction certificate.

The Planning Agreement also requires the public domain works to part of Barton Street to be completed prior to the issue of an occupation certificate for the Proposed Development.
