

Wollombi Road Upgrade Project

Upcoming night works – Wollombi Road

Cessnock City Council is upgrading Wollombi Road to make it safer, improve traffic flow and handle more vehicles – we want to make sure it can meet the needs of today and the future.

We're reaching out to let you know that Cessnock Council is completing upcoming **night works on Wollombi Road, between Wangi Avenue and Florence Street**. These works are scheduled to take place on two or more nights between **Wednesday 30 July & Thursday 7 August**, subject to Transport for NSW approval and weather conditions.

This night work is part of our ongoing site investigations on Wollombi Road.

What does the work look like?

An excavator with attachment will be used to obtain samples. Following this the road pavement will be reinstated. As the work is in or next to live traffic lanes, out of hours is the safest and least disruptive way to conduct it.

How will the work affect you?

Some construction noise is anticipated, however we will make every effort to minimise noise by turning off machinery when not in use. While we'll work as efficiently as possible to complete the job quickly, we may need the entire night depending on how the work progresses.

Will there be any road closures?

We will not be closing any roads for this work. Traffic lights will be in place in some areas, which will limit traffic to one direction at a time. Speed limits will also be reduced in some sections, which could lead to minor delays and queuing. Traffic controllers and signage will be in place to alert pedestrians and motorists of the changed conditions.
