

Planning for our people, our place, our future

## CESSNOCK DELIVERY PROGRAM

CESSNOCK LGA 🜔 2025-2029

Journey Through Time, created by local school students and artist Steven Campbell.

#### Acknowledgement of Country

Cessnock City Council acknowledges that within its local government area boundaries are the traditional lands of the Wonnarua people, the Awabakal people and the Darkinjung people. We acknowledge these Aboriginal peoples as the traditional custodians of the land on which our offices and operations are located, and pay our respects to Elders past and present. We also acknowledge all other Aboriginal and Torres Strait Islander people who now live within the Cessnock Local Government Area.

## Introduction

#### How to read this plan

Our Delivery Program is presented in five overarching Objectives. Within each outcome are statements on what our community would like for our city over the next ten years. This four year program maps out a pathway for the first stage toward achieving the goals in the Community Strategic Plan. Our program includes a list of partners that can help deliver each theme, as well as how we will know we are on track, and how we will measure this.

This program is prepared by Cessnock City Council on behalf of our community in accordance with requirements of the *Local Government Act.* 

### Mayor's message **Daniel Watton**

For the first time as Cessnock City Mayor, I am proud to present Cessnock City Council's latest delivery program. The Cessnock Delivery Program 2025-2029 lays out Council's priorities across works, infrastructure, and service delivery for the next four years.

We all know how lucky we are to live and work in the Cessnock local government area, and it is little wonder our population is quickly growing - many people want to share in our wonderful community.

Rapid population growth means we need to keep pace with evolving needs of our community. This document sets out our way forward, towards our shared future as that evolution takes place. The delivery program maps out a pathway for the critical first stage as we work towards Cessnock 2040 - the longterm vision for this local government area.

More than two years of extensive consultation provides the bedrock for Cessnock 2040, and has resulted in five key objectives: 'Live', 'Thrive', 'Protect', 'Move', and 'Lead'.

These objectives, along with the top priorities of 'Roads', 'Costs', and 'Recreation & Leisure', which were identified by the community, will be high priorities for Council over this term of Council and beyond.

### General Manager's message Ken Liddell

While the Cessnock 2040 Community Strategic Plan encapsulates the common vision of Cessnock City Council, the local community, and other important stakeholders beyond the next decade, Council's Delivery Program 2025-2029 will help us realise some important benchmarks during the next four years.

This delivery plan, and the one-year operational plan it contains, is part of the broader vision of providing vital infrastructure and services for our community. It notes the key challenges and opportunities we face from a rapidly growing population and infrastructure needs, and the steps we need to take towards sustainability. It outlines the

actions and projects Council will undertake to achieve the objectives set out in Cessnock 2040 - from upgrades to Kurri Kurri Netball Facility and Weston Bears Park, to the first stage of the major overhaul of Wollombi Road.

The community's top priorities for the next ten years have been made clear through extensive consultation. From this dialogue, involving people from all parts of our vast local government area, we have a plan to achieve those goals as well as agreed upon metrics to ensure we remain on target.

This document is a key tool that will help us reach our shared vision of the future.

DELIVERY PROGRAM 2025-2029 | 19

## The Cessnock Local **Government Area**

Cessnock City is located in the Hunter Valley, New South Wales, about 120 kilometres north of Sydney, 58 kilometres southwest of Newcastle Airport and approximately 40 kilometres west of The University of Newcastle and the Port of Newcastle.

Our area is located on the traditional lands of the Wonnarua people, the Awabakal people and the Darkinjung people and has a rich Indigenous heritage with many towns, villages, and localities bearing Aboriginal names including Kurri Kurri (meaning "the beginning" or "the first") and Wollombi ("meeting place" or "meeting of the waters").

Our area's local biodiversity is significant, both in the Hunter Valley and NSW, with more than 65 threatened species of plants and animals, including nine endangered ecological communities. Critically endangered species, including the Regent Honeyeater and Swift Parrot use our local bushland for food and shelter. The Regent Honeyeater is also known to breed here. Listed as critically endangered, the North Rothbury Persoonia (persoonia pauciflora), is only found in a small area in North Rothbury.

European settlement dates from the 1820s when pastoralists arrived using land mainly for farming, market gardening and timber getting. The Great North Road was constructed in the 1830s, linking the Hawkesbury and Hunter Valleys.

The township of Cessnock developed from 1850 as a service centre at the junction of the Great North Road. Significant development in Cessnock occurred when coal was struck in 1892 and several coal mines were established.

Changes to the mining industry led to the closure of the vast majority of mines, resulting in a decline in population in many villages and townships, especially since the 1980s. Many areas have undergone a change in character, with rural residential housing developments becoming popular.

There has been a rise in the wine and tourism industry, with many vineyards at Allandale, Mount View, Pokolbin and Rothbury, as well as small cottages and farms used mainly as weekend retreats.

## **Our Community Vision**

Cessnock is a cohesive and welcoming Community living in an attractive and sustainable rural environment.

There is a diversity of business and employment opportunities supported by accessible infrastructure and land services which effectively meet community needs.

120km South

**SYDNEY**

## **Our Accountability**

#### Our path to reconciliation

We are committed to building unity and respect between Aboriginal and Torres Strait Islander peoples and other Australians. We recognise Aboriginal and Torres Strait Islander peoples as Australia's First Peoples and respect their connections to lands, waters, places and cultures. We acknowledge that within our city boundaries are the traditional lands of the Wonnarua people, the Awabakal people, and the Darkinjung people. We aim to create a welcoming community where the histories, cultures, knowledges, achievements and aspirations of Aboriginal and Torres Strait Islander peoples are acknowledged, respected, considered and celebrated. We support the national objectives of closing the social, economic and health gaps between Aboriginal and Torres Strait Islander peoples and the broader Australian community and achieving reconciliation in Australia. We will ensure reconciliation is alive in our City by walking together along our two paths to increase our understanding and appreciation of Aboriginal and Torres Strait Islander cultures and current issues.

#### Supporting an accessible and inclusive community

Building positive attitudes

## Supporting meaningful employment

Communities that are accessible and inclusive provide greater choice and control for individuals and are vital to enabling people with disability the opportunity to participate equally in community life.

We recognise that barriers people with disability encounter in participating in community life are not just about the individuals or their personal condition, but from the interaction between people with disability and the physical, attitudinal, communication and social barriers they face in their environment.

## Accessible systems, information or processes

Creating liveable communities

We play a key role in working to remove barriers so people with disability can participate equally and independently in our community. We are committed to upgrading accessibility within our community infrastructure and events by introducing systems that support inclusion. We are also committed to promoting diversity and fostering positive community attitudes, recognising the key contributions people with disability make in our community.

#### Our commitment to the environment

Since the 1970's the Hunter Region has experienced a changing climate with the average annual maximum temperature increasing. We are committed to net zero emissions by 2050, and we have committed to both mitigation and adaptation measures for our operations and our community. We are dedicated to facilitating community greenhouse emissions reduction and sustainable actions through factual education and advice to our stakeholders.

Our city is biologically diverse and supports a range of ecosystems, ecological communities and vegetation types including dry rainforest in the Mount View and Bow Wow area, which supports many threatened bird species. Botanists have also counted 29 species of Eucalypt near Kurri Kurri.

We are dedicated to balancing development management with the adequate protection of biodiversity to ensure the outcomes are sustainable for the future viability of both.

### Supporting Local

goods and services.

## The framework

### Integrated Planning & Reporting Framework

The Community Strategic Plan (CSP) is the highest-level plan that we will prepare. Its purpose is to identify our community's main priorities and aspirations (Outcomes) for the future along with objectives, strategies and actions to achieve these goals.

All NSW local councils are required, under the *Local Government Act 1993*, to develop a long-term Community Strategic Plan in consultation with our community and must be endorsed by our Council.

#### It must:

- Identify the main priorities and aspirations for the future of our area
- Cover a minimum timeframe of 10 years
- Establish objectives and strategies towards our desired outcomes
- Address the quadruple bottom line in an integrated manner
- Give due regard to relevant state and regional plans

#### We must:

- Ensure our CSP is adequately informed by relevant information relating to the following issues:
- Social, environmental, economic, and civic leadership

#### Be based on the social justice principles:

- Equity, access, participation, and rights
- Prepare and implement a Community Engagement Strategy based on social justice principles for engagement with the local community in the development of our CSP
- Provide the Chief Executive of the Office of Local Government with a copy of our CSP (and any amendment of the plan) within 28 days of the plan (or amendment) being endorsed

In order to play our part in implementing Together Cessnock 2040; we will undertake the following planning and reporting activities:

#### 4-year Delivery Program

Our 2025 – 2029 Delivery Program details all principal activities to be undertaken to meet our statutory obligations and deliver the objectives and strategies outlined in our CSP. We will update this document each year to accurately reflect change in our one year Operational Plan.

#### **Resourcing Strategy**

Three strategies and plans to support achievement of our CSP objectives

- Long-Term Financial Plan (LTFP)
- Asset Management Strategy (AMS)
- Workforce Management Strategy (WMS)

#### 1-year Operational Plan

Identifies the specific annual projects and services that will be funded each year in our annual budget.

#### **Regular Council Review**

The General Manager will report each quarter on our progress in implementing our Delivery Program.

#### Annual report

We will prepare an Annual Report summarising our operations and initiatives for the year.

#### **Community Research**

We will undertake independent community research every two years to gauge our community's perceptions of progress against our CSP.

Integrated Planning and Reporting framework

#### **State Plans & Strategies**

## **Developing our plan**

#### Your say

#### **Highest priority issues**

	1	3	3
	不	7	7
C	大	大	1

#### 1. Roads

"Prioritising infrastructure particularly roads and traffic control."

"Traffic management in the Cessnock area; the new estates are outgrowing the traffic control, congestion is a major problem including damaging the road."

"Roads near school are not safe because of speeding and disrepair."

#### 2. Costs

"Rising cost of living in the area, specifically housing prices."

"Rising prices in food shopping and house prices, daily living expenses."

## 開始

#### 3. Recreation & Leisure

"Lack of infrastructure for community."

"More recreational activities, e.g. introduce a cinema, gated playgrounds."

"More pedestrian paths and cycleways."

#### **Community Involvement**

Our engagement activities are guided by the best practice International Association for Public Participation (IAP2) model. This is used to help us understand any changes in our community's aspirations for our future. Consultation with members of our community and stakeholders through surveys, online discussions, community events, workshops and local conversations ensured that our community had the opportunity to participate in the development of our plan. The results of this engagement were considered when formulated our community's strategic plan for the next 10 years.

February 2023	Community Satisfaction Survey	Phone survey, independently managed 400 participants
June 2023	Australian Liveability Census	Online benchmarking survey, independently run Over 15,000 responses
June to October 2024	Community Pop Ups	12 Face to Face sessions. 400+ conversations
June to October 2024	Formal submissions portal	Community comments and submissions
June to October 2024	'Have your Say' digital forums campaign	337 page visits 192 contributions
February 2025	Community Satisfaction Survey	Phone survey, independently managed 402 participants

## **Strategic Alignment**

### International Sustainable Development Goals (SDGs)

In September 2015, Australia was one of 193 countries, to commit to the Sustainable Development Goals (SDGs). These goals were developed by the United Nations in 2015 to provide a global roadmap for all countries to work toward a better world for current and future generations.

Our council has adopted the SDGs for our planning.

All stakeholders, including governments, civil society and the private sector, are expected to contribute to the realisation of these goals.

#### **Quadruple Bottom Line**

Quadruple bottom line is a way for Council to make sure we address the 4 key pillars of sustainability:

#### Environment

Responsible design that conserves, protects and, where possible, repairs the natural environment by seeking low impact technological and nature-based solutions to support health and wellbeing.

#### Economic

Decisions that support long-term economic development of our community, ensuring equality and long-term benefits as well as protecting the three other pillars of sustainability.

#### Social

Considering the cultural, social and practical impacts for all affected by our decisions and ensuring egalitarian, positive outcomes.

#### Governmental

Structuring interventions in such a way that they can be effectively managed to provide maximum benefit over extended timeframes.

#### **Community Wellness Indicators**

Wellbeing relates to our quality of life and includes both a subjective evaluation of our life and our objective circumstances, such as education, health and income.

Research conducted by Deakin University found that for people to maintain a positive sense of wellbeing, they need three core elements in their lives:

Strong personal

relationships

We are social beings and

our relationships and

connections are crucial

to our wellbeing and

help us thrive.

#### Standard of living

The ability to financially manage the life's fundamentals such as eating, accommodation and socialising provide us with a sense of security.

Achieving in life

Our wellbeing hinges on doing things that create meaning in our lives.

#### Inclusion, fairness and equity Overall life satisfaction Sustainable Cohesive Healthy Secure **Prosperous** Living peacefully Protect, repair Having time for family Healthy throughout life Dynamic economy that shares prosperity and feeling safe • Life expectancy and manage the and community environment National income • Feeling of safety • Time for recreation Mental health per capita • Emissions reduction and social interaction • Experience of violence • Prevalence of chronic Productivity • Air quality Social connections conditions Childhood experience Household income Creative and cultural Protected areas of abuse and wealth engagement Online safety Biological diversity Income and wealth National safety Resource use and inequality waste generation • Access to justice Innovation Valuing diversity, Access to education, skills development and belonging and culture learning throughout life Experience of Childhood discrimination development Acceptance • Literacy and numeracy of diversity **Resilient** and Equitable access to Having financial skills at school First Nations quality health and security and access to sustainable nation Education attainment languages spoken housing care services Fiscal sustainability Skills development Sense of belonging • Access to • Making ends meet Economic resilience Digital preparedness health services • Homelessness Climate resilience • Access to care and Housing serviceability support services Trust in institutions Broad opportunities for employment and well-paid, secure jobs Trust in others Trust in key institutions • Wages Trust in Australian Job opportunities public services Broadening • Trust in national access to work government Job satisfaction Representation Secure jobs in parliament

#### **Community Resilience**

Resilience is the capacity of individuals and communities to prepare for, respond to, recover from, and adapt to challenges (including natural hazard events) in ways that support healthy levels of wellbeing over the long-term. Resilience empowers individuals, communities, organisations and systems to thrive in the face of adversity, adapt to change, and effectively navigate the complexities of our interconnected world.

For more information, see Exploring community resilience in Australia

# NEW AND EMERGING ISSUES

## **New and Emerging Issues**

#### Asset Management

Cessnock has continued to experience solid population growth rates. Our area's current growth rate is one of the highest of all New South Wales. We have adopted asset management policy and strategies to manage our public assets. These documents inform the Long-Term Financial Plan that sets the funding levels for renewal and maintenance works over a 10-year period. Our approach is to fund natural asset consumption or deterioration to gradually improve the overall network and portfolio condition over time while balancing risk and level of service.

#### **Housing Diversity**

Shelter is a basic human need, and issues around housing access impact our wellbeing. Housing affordability and availability has become a major issue across Australia and an indication of the seriousness of this problem is the number of people experiencing housing stress. Forecasts show that our population is set to grow to 115,696 by 2046, stimulating demand for new dwellings.

Our vision is that our community's housing needs are met and lifestyle aspiration are achieved. We will work to provide a mix of affordable, diverse and sustainable options and a supported community housing sector.

#### **Circular Economy**

Governments worldwide are embracing the circular economy and creating policies to encourage circular practices.

In Australia, the Product Stewardship Centre of Excellence is developing policies and solutions that assist with management of the environmental and social impacts of products throughout their life cycle.

A circular economy is about changing the way we produce, assemble, sell and use products to minimise waste, and to reduce our environmental impact.

The benefits of a circular economy for our community is about

- Getting as much use out of products • and materials as possible
- Reducing the amount of waste we generate

For more information, see <u>Hunter JO</u> December Circular Economy Update -Hunter Circular

#### **Cyber Security**

Effective cyber security, robust risk controls and strong information management are central to maintaining the confidence and trust of our community and stakeholders. A strong framework for managing information security and cyber risks is a pre-requisite in a modern digital environment. We are working with the NSW and Australian Government to further develop our cyber security capabilities through the national cyber security centre and continue work with stakeholders to promote and grow cyber security capabilities by implementing the digital standards for cyber security.

Our systems are secure and resilient to evolving cyber threats. Non-negotiable minimum security standards are applied across our council

#### Integrated

Coordinate and collaborate with our partners within a federated framework

#### Responsive

Maintain a strong and timely response to cyber threats and incidents. Our staff Capabilities are lifted through training and support

## Challenges

#### Economic

In any year, the economy has a significant impact on expected revenues and expenses, which in turn affects the demand for certain services we provide. The costs of materials and services and return on investment are affected by changes in inflation rates and interest rates. Recent global and national events have highlighted current economic and cost of living pressures on many Australian households.

#### Environmental

Many of our maintenance and construction activities priorities and programs are also impacted by climate change and subsequent weather events such as floods, bushfires and storm events. This can cause the re-evaluation of our activities and priorities, which significantly impacts our future plans.

#### Asset Management

Recent local government reviews have highlighted the shortfall in infrastructure maintenance and renewals expenditure, as well as the level of service expected by our community. This is a common issue. If appropriate asset management processes are not adopted, then assets can deteriorate to the point where agreed service levels are no longer achievable.

We continue to identify substantial future commitments that will require funding in the short to medium term, including maintenance funding for these projects. The amounts associated with these future commitments exceeds our capacity to fund the construction or maintenance of the assets within existing budgets. We will need to consider mechanisms in the current term of council to substantially increase the revenue base or alternatively divest assets and reduce service levels to existing services.

# SPECIAL RATE VARIATION

## **Special Rate Variation**

An important part of our Council's role is to lead and work with our community to build a diverse and resilient area by fostering sustainable growth, enhancing community services, and maintaining the quality of life for our community. To achieve these goals, we rely on various funding mechanisms including rates.

Since 1977 our rate and other revenue streams have been regulated in NSW under an arrangement known as rate pegging.

The 'Rate Peg' is the maximum percentage amount a council can increase its income from rates, and has two (2) components to the calculation:

- Local Government Costs Index (LGCI): designed to reflect the costs that councils incur when providing goods and services to their communities, including labour, construction, and administration cost
- Residential population growth (specific to each council): to cover the increase in costs associated with delivering local government services in growing council areas

The Rate Peg amount is determined annually by the Independent Pricing and Regulatory Tribunal (IPART), which is the independent pricing regulator for water, energy, public transport and local Government. Every year our Council produces a document called the Long-Term Financial Plan which forecasts our position in 10 years' time. For a while now, we have been forecasting a big shortfall and have tried to bring the budget back to surplus while continuing asset maintenance. Recently, those forecasts changed for the worse reflecting structural issues.

The high inflationary cost increases have meant our predicted losses have become too big to be tackled through cost cutting alone for several reasons:

- The rising cost of materials, labour and contractors
- The government's 'rate peg' has not kept up with inflation
- Rate income only provides 32% of council income
- The overall condition of many Council assets - such as roads, buildings and pools - presents high costs for replacement and maintenance
- An increasing community expectation around the quality of these assets
- Limited alternative revenue opportunities
- Federal Government slashing distribution
   of tax income to local government
- State Government shifting costs onto local government.

In 2021-2022 the cost to NSW local councils of cost-shifting was \$1.36 billion, which is \$460.67 per ratepayer. Our Council must divert this amount from the services and infrastructure we provide to our community in order to fund the unrecoverable cost of services, programs and functions that are imposed by the state or federal governments.

Our Council is currently responsible for managing more than \$1.3 billion worth of public assets including roads, parks and open space, buildings, stormwater drainage and an airport. Over the last five (5) years, the cost of materials, wages, and maintaining or replacing our assets has increased at a greater rate than the income our Council can generate.

A Special Rate Variation (SRV) allows us to increase rates above the rate peg increase.

An SRV may enable our Council to increase general income beyond the rate peg limit so that we can continue to fund specific projects, address infrastructure needs, and improve financial sustainability.

Our Council will consider submitting an application for an SRV for the 2026-27 financial year. IPART will determine the SRV application, which can only be made after Council resolves to apply for an SRV.

The Long Term Financial Plan outlines Council's forecast position under various scenarios.

# Collaboration, influence and supporting strategies

Achieving our community outcomes requires commitment from all levels of government, business, industry, organisations, institutions and our community.

#### Our influence

Our Council takes a leading role in the implementation of our CSP however, it is not wholly responsible for its implementation. It requires collaboration and advocating with other levels of government, industry and communities to achieve our long-term goals.

DELIVER	As part of our core business, we provide these services and assets and will continue to regulate activities as required by our legislations	<ul> <li>Building and maintaining local roads</li> <li>Providing swim centres and lifeguards</li> <li>Running community support programs</li> </ul>
PARTNER	We will support and partner with all stakeholders to deliver benefits and services to the community	<ul> <li>NSW State Emergency Service</li> <li>NSW Police</li> <li>Hunter Water</li> <li>Providing grants to our community run events</li> </ul>
ADVOCATE	We will continue to influence others to create positive change for our community through advocacy	<ul> <li>Advocating to Transport for NSW for public transport option</li> <li>Advocating at a State and Federal level for funding in our area</li> </ul>

We will continue to identify those issues we can control, where we can influence outcomes and where influence may be limited but there are opportunities to advocate and educate.

#### **Our Partners**

We acknowledge a number of the major international, federal, state, regional and local issues that may have a significant impact on our community over the next 10 years, including but not limited to, the following agencies:

# SERVICE DELIVERY

## **Service delivery**

In 2022 the Office of Local Government introduced continuous improvement as a requirement of the IPR framework, which focuses on ways to better meet our community's expectations regarding priorities and service levels.

It is our commitment to introduce a Service Delivery Framework that ensures our services are:

- Appropriate,
- Effective,
- Efficient •
- Are to a standard guided by our community.

In 2024-25 we undertook a preliminary service delivery review of our internal processes in preparation for a more expansive review. Our talent acquisition process was reviewed and streamlined to increase efficiency within our organisational human resource approval process. Additionally, a review of our asset management processes and systems

has resulted in a migration of asset data to a cloud-based system, utilising preliminary road data to update programs to better inform and build long-term Asset Management Capability.

We have made a commitment over the next 4 years to continue to undertake a service review program to ensure our services meet our Continuous Improvement Framework. This framework is a vital process to ensure we engage with the community and other stakeholders to define service level expectations and identify appropriate indicators to measure the achievement of objectives identified in the service review.

We will continue to ensure we check in with our community on service level expectations through our regular communications and our Community Engagement Strategy. We will also keep our community informed about any impacts of changes to service levels, impacts to other services, the cost of any changes and how these will be funded, with specific details being included in our Annual Report each year.

# 2025-29 DELIVERY PROGRAM AND 2025-26 OPERATIONAL PLAN

# 2025-2029 Delivery Program and 2025-26 Operational Plan

The Delivery Program is a statement of Council's commitment to the community over the next four years and is the single point of reference for all principal activities undertaken by the elected Council during its term of office.

## How to read this plan

The following information explains the headings used in this plan.

#### **Community outcomes**

Our "Community Outcomes" describe the kind of city we would like to be in 10 years' time. They also inform all our plans and strategies and were identified during our community engagement opportunities over 2023 and 2024.

### **Community objectives**

These are our community's long-term priorities and aspirations for our area and contribute to achieving our vision. Our Council has a custodial role in working towards realising these objectives, however, are not wholly responsible for achieving them. Other partners, such as individuals, state and federal agencies and community groups also have an important role to play.

### **Delivery Program strategies**

These are our strategies which describe our elected Council's commitment to deliver against our CSP over its 4-year term. They describe what can be delivered within our available resources and are aligned with community objectives and outcomes in our CSP.

### **Operational Plan actions**

These are the annual projects and activities we will deliver against our Delivery Program Strategies. There is an annual plan for each of the 4 years of our Council's term. They are aligned with our Delivery Program.

# HOW WE CAN ACHIEVE OUR STRATEGIC PRIORITIES

# How we can achieve our Strategic Priorities

## Delivery Program 2025-2029

The Delivery Program 2025-2029 is our strategies over the next four (4) years for our community toward achieving our city's vision. The strategies below ensure we are working to achieve the quadruple bottom line.

#### **General Definition**

Capital Projects consist of projects that build new community infrastructure. They can include road improvements such as resurfacing or intersection upgrades, shared pathways, drainage improvements, asset renewal works, playground upgrades or replacement, new facilities such as sports amenities and libraries, and environmental projects such as erosion control and bank stabilisation.

#### **Asset Management Prioritisation**

The Asset Management Prioritisation programs have been developed to bridge the gap between current/historic funding levels and the community's desired level of service. It targets assets or asset components that are falling under this service level and brings them back in-line with our community's expectation.

### **Our Measures**

SERVICE MEASUR	e (benchmark)	SOURCE	METHODOLOGY	DESIRED TREND
Community engagement with community events This score is 37% in 2022. NSW score is 50%		Community Resilience Insights https://communityresilienceinsights.org.au/nsw/map/	This is a measure of a person's social ties in their local community. While these types of relationships are not as close as those with friends and family, they provide many important types of support. These could include access to useful information, knowledge, and skills. Community engagement – community events – is measured using a survey item that asks participants to rate 'How often do you attend community events such as farmers markets, community festivals?' on a scale from 1 (never or almost never) to 7 (all the time).	Maintain and improve
Community liveability	This score was 70% in 2022. NSW score was 71%	Community Resilience Insights https://communityresilienceinsights.org.au/nsw/map/	This indicator measures the overall liveability of a community by identifying what proportion of its residents would recommend their community to others as a good place to live. Liveability of community was measured through a survey item that asked participants how strongly they agree or disagree with the statement "I recommend my community to others as a good place to live", rating on a scale from 1 (strongly disagree) to 7 (strongly agree).	Maintain and improve
Crimes rate	This figure is 13,386 in 2023	Bureau of Crime Statistics and Research	This measure is the overall crime rate as measured by the number of reported offences per 100,000 population. The most common type of crime in Cessnock is breach of bail conditions. In 2021 Cessnock was 14% safer than all NSW suburbs and has a low safety profile according to our scoring systems.	Reduce
Perception of Local Crime	This score is 22% in 2022. NSW score is 36%	Community Resilience Insights <u>https://communityresilienceinsights.org.au/nsw/map/</u>	This indicator measures individuals' perceptions of local crime and safety. Perceptions of local crime levels are measured based on a series of survey items that ask participants to rate the extent to which crime is currently a problem/challenge in their community on a scale from 1 (not a problem) to 7 (very big problem).	Reduce

## **Our Measures**

SERVICE MEASURE	(BENCHMARK)	SOURCE	METHODOLOGY	DESIRED TREND
Open space and green corridors	16,675 lots 80.0%	Council's geographic information system	This measure is the number of lots zoned residential within 500m of open space and green corridors. This measure identifies the number and proportion of residents with access to open space for passive and active recreation purposes. In 2021 these figures were 16,675 lots at 80.0%.	Maintain
Community Satisfaction with parks and recreation areas	In 2025 this score was 84% 3.59 - satisfied	Micromex Community Survey	A core element of this community survey was the rating of 41 facilities/services in terms of importance and satisfaction. Score = somewhat satisfied/satisfied/very satisfied. Scale: 1 = not at all satisfied, 5 = very satisfied.	Maintain
Kerbside collection recycling	In 2024 this was 39%	Hunter Resource Recovery	This is the total tonnes diverted from landfill when compared with all waste streams collected and handled within the LGA	Improve
Kerbside organic collection	In 2024 this was 6,293.14 tonnes per annum	Australian Native Landscapes	This is a measure of the number of tonnes recycled and re- processed via the kerbside organics collection service.	Improve
Ecosystem Service	The score is 83% in 2022. NSW is 84%	Community Resilience Insights https://communityresilienceinsights.org.au/nsw/map/	This indicator examines whether local amenity is changing, through monitoring whether the proportion of people who like the landscape and surrounds they live in is changing. Local amenity – environment and surrounds – are measured through a survey item in which people are asked to rate how much they agree or disagree with the statement 'I like the environment and surrounds I live in', on a scale from I (strongly disagree) to 7 (strongly agree).	Maintain
Natural Hazard Resources	This score is 43% in 2022. NSW score is 50%	Community Resilience Insights https://communityresilienceinsights.org.au/nsw/map/	This indicator is a simple measure of the level of community cohesion after a natural hazard event. Community cohesion after natural hazard events is measured in a survey item that asks participants to rate how much they agree or disagree with the statement 'The process of recovering from disaster has caused tension or disagreement between some people in my community' on a scale from 1 (strongly disagree) to 7 (strongly agree).	Maintain

# HOW WE WILL DELIVER FOR OUR COMMUNITY 2025-26 OPERATIONAL PLAN

# How we will deliver for our community 2025-26 Operational Plan

## About this plan

The Cessnock Operational Plan 2025-26 is a one-year plan developed to implement the operational activities that will achieve the long-term strategic directions outlined in the Cessnock Delivery Program 2025-29 and the community-developed outcomes in our Community Strategic Plan, Together Cessnock 2040.

Every unit within our Council has a plan and, in turn, every individual has a work program which all contribute to achieving the Cessnock Delivery Program 2025-29, and ultimately the desired outcomes of Together Cessnock 2040.

## How we will achieve our priorities

#### Where does our money come from?

#### Where will our money go?

#### Sources of revenue (Budget FY24/25)

Sources of expenditure (Budget FY24/25)

\*including waste charges and contributions collected on behalf of other bodies per the Revenue Policy.

Employee costs <b>36%</b>
Borrowing costs <1%
Materials and contracts 29%
Depreciation 23%
Other expenses 5%
Net loss on disposal of assets <b>7</b> 9

# FUNDING OUR CAPITAL PROJECTS

LOVE

# **Funding our Capital Projects**

Council uses different funding streams to finance our projects and programs. Below shows the breakdown of funding for 2025-26.

# 2025-26 Capital Program

#### Source of funds

# Our key projects

The Cessnock Operational Plan 2025-26 is a one-year plan developed to implement the operational activities that will achieve the long-term strategic directions outlined in the Cessnock Delivery Program 2025-29 and the community-developed outcomes in our Community Strategic Plan, Together Cessnock 2040.

- Shared pathway linking Kurri Kurri, Testers Hollow to Cliftleigh •
- Stormwater upgrade at Portland Street Millfield
- Wollombi Road upgrade
- New landfill development at Cessnock City Council Waste Facility
- Kurri Kurri Netball Facilities
- Upgrade Weston Bears amenities and Grandstand

## **General definition**

The Cessnock Operational Plan 2025-26 is a one-year plan developed to implement the operational activities that will achieve the long-term strategic directions outlined in the Cessnock Delivery Program 2025-29 and the community-developed outcomes in our Community Strategic Plan, Together Cessnock 2040.

# Asset Management Prioritisation

The Asset Management Prioritisation programs have been developed to bridge the gap between current/historic funding levels and the community's desired level of service. It targets assets or asset components that are falling under this service level and brings them back in-line with our community's expectation.

LIVE

We are connected, safe and creative

# Outcome 1 – Live

## We are connected, safe and creative

This objective relates to community wellbeing, connectedness, and safety. Community engagement participants continue to express the desire for a healthy, active, engaged, and cohesive community that maintains its unique local identity and friendliness into the future.

# **2025-26 Operational Plan Actions**

within our workforce.			Deliver	External audit to assess Council's performance against workplace health and safety has been undertaken.	
				External audit to assess Council's return to work and workers compensation programs has been undertaken.	

## 5.2 Encourage community collaboration in decision making

5.2.1 Ensure that community participation is central in planning for our area

STRATEGIES: 4 YEAR PLAN	SERVICE AREA	SUPPORTING PROCESSES (STRATEGIES/PLANS)	OUR ROLE (LEVEL OF INFLUENCE)	OPERATIONAL PLAN SERVICE INDICATOR	OPERATIONAL PLAN TARGET
Obtain feedback from our community events to ensure delivery of a diverse program engaging children, young people and families.	Community & Cultural Development	Community Infrastructure Strategic Plan	Deliver	We have undertaken a range of feedback options for our community events.	30 June 2026
Engage with the community and local service providers to participate in the delivery of our community and cultural development programs.	Community & Cultural Development	Community Infrastructure Strategic Plan	Deliver, Collaborate	We have engaged with local service providers to participate in our community programs.	30 June 2026
Participate with the Hunter Joint Organisation (JO) to promote the interests of our area.	GMU	Hunter Joint Organisation	Deliver, collaborate	Hunter JO meetings have been regularly attended.	30 June 2026

#### 5.2.2 Ensure our staff have the skills, tools, capacity and confidence to engage effectively

STRATEGIES: 4 YEAR PLAN	SERVICE AREA	SUPPORTING PROCESSES (STRATEGIES/PLANS)	OUR ROLE (LEVEL OF INFLUENCE)	OPERATIONAL PLAN SERVICE INDICATOR	OPERATIONAL PLAN TARGET
Ensure our workforce is appropriately trained and resourced in meeting their governance and statutory compliance obligations.	Governance	BAU	Deliver	Engagement has been undertaken.	30 June 2026
Ensure our customers are supported and have positive experiences with our Council.	Business Support & Customer Service	Customer Experience Strategy	Deliver, collaborate	We have undertaken training sessions for our Customer Relations Team. Members of our workforce have attended our Customer Service Program.	30 June 2026
Review our workplace induction and onboarding program.	People & Culture	Workforce Management Strategy	Deliver	Our induction and onboarding program has been reviewed and recommendations made.	30 June 2026
Develop core capabilities and competencies across all levels of our Council.	People & Culture	Workforce Management Strategy	Deliver	Core capabilities and competencies have been implemented for our workforce.	30 June 2026

#### 5.2.3 Ensure our community has the necessary information to make an informed contribution

STRATEGIES: 4 YEAR PLAN	SERVICE AREA	SUPPORTING PROCESSES (STRATEGIES/PLANS)	OUR ROLE (LEVEL OF INFLUENCE)	OPERATIONAL PLAN SERVICE INDICATOR	OPERATIONAL PLAN TARGET
Ensure our community reporting complies with the Integrated Planning & Reporting legislation.	Finance & Administration	Integrated Planning & Reporting Guidelines	Deliver	All reporting requirements under legislation have been met.	Ongoing
Ensure our financial reporting complies with the Australian Accounting Standards.	Finance & Administration	Local Government Code of Accounting Practice	Deliver	All reporting requirements under legislation have been met.	Ongoing

### 5.3 Ensure we are accountable and responsive to our community

#### 5.3.1 Continuously improve the efficiency and effectiveness of our service delivery

STRATEGIES: 4 YEAR PLAN	SERVICE AREA	SUPPORTING PROCESSES (STRATEGIES/PLANS)	OUR ROLE (LEVEL OF INFLUENCE)	OPERATIONAL PLAN SERVICE INDICATOR	OPERATIONAL PLAN TARGET
Ensure our Council's services are effectively aligned with our processes and procedures.	Finance & Administration	Customer Experience Strategy	Deliver, collaborate	A review has been undertaken and recommendations drafted.	30 June 2026
Maintain a continuous review of internal processes to remain compliant with the Department of Planning and Environment's Development Assessment Best Practice Guide.	Development Services	BAU	Deliver	Our review process has been undertaken and remains compliant.	30 June 2026
Ensure our Council's administration building provides our workforce with the capacity to effectively meet the needs of our current and growing population.	Finance & Administration	Special project	Deliver	An investigation has been completed and recommendations have been drafted.	30 June 2026

#### 5.3.2 Harness the potential of digital technologies to improve interaction with customers to deliver better outcomes for our area

STRATEGIES: 4 YEAR PLAN	SERVICE AREA	SUPPORTING PROCESSES (STRATEGIES/PLANS)	OUR ROLE (LEVEL OF INFLUENCE)	OPERATIONAL PLAN SERVICE INDICATOR	OPERATIONAL PLAN TARGET
Investigate the expansion of the application programming interface for software packages utilised throughout our Council.	Information Technology	Digital Strategy	Deliver	We have undertaken an investigation and made draft recommendations.	30 June 2026
Ensure our Council has the necessary tools and capacity to enable our community to be informed and have opportunities to contribute to our decision making.	Media & Communications	Community Engagement Strategy	Deliver, collaborate	We have undertaken a review of our digital engagement platform and made draft recommendations.	30 June 2026
Our Council's websites are inclusive, accessible, contain accurate information and are easy to navigate.	Media & Communications	Customer Experience Strategy	Deliver, collaborate	A review has been undertaken and amendments implemented.	30 June 2026
Strengthen digital literacy for our workforce.	People & Culture	Workforce Management Strategy 2022-26	Deliver	Targeted digital literacy training has been undertaken.	30 June 2026
Enhance the utilisation of our electronic safety and risk management system.	People & Culture	Workforce Management Strategy 2022-26	Deliver	Workforce reporting meets internal compliance requirements.	Ongoing

#### 5.3.3 Ensure we maintain adequate funding to support our plans of management, cash position and adopted plans and strategies

STRATEGIES: 4 YEAR PLAN	SERVICE AREA	SUPPORTING PROCESSES (STRATEGIES/PLANS)	OUR ROLE (LEVEL OF INFLUENCE)	OPERATIONAL PLAN SERVICE INDICATOR	OPERATIONAL PLAN TARGET
Ensure that we maintain a comprehensive grants processes and register.	Finance & Administration	BAU	Deliver	Our grants register remains contemporary.	Ongoing
Collaborate with the community to develop new and expand existing community events delivered within our area.	Community & Cultural Development	BAU	Deliver	Letters of support provided to organisations that seek external funding for the holding of an event within the Cessnock Local Government Area. Funding applications made by Council to deliver and/or expand on Council-hosted community events and held across a range of locations within our area.	Ongoing - as and when they become available
Ensure appropriate collection of data to meet annual reporting IPR requirements.	Finance & Administration	BAU	Deliver	We have recorded and provided the requisite information to Office of Local Government.	30 June 2026
Submit grant funding applications in accordance with asset management plans for improvements to recreation community facilities.	Open Spaces & Community Facilities	Community Infrastructure Strategic Plan	Deliver	Applications successfully submitted and align with our asset management methodology.	Ongoing - as and when they are identified
Seek funding for delivery of Floodplain Management Programs.	Asset Management	Asset Management	Deliver	Grant funding opportunities have been identified and applications submitted.	30 June 2026

#### 5.3.4 Provide efficient and effective regulatory systems

STRATEGIES: 4 YEAR PLAN	SERVICE AREA	SUPPORTING PROCESSES (STRATEGIES/PLANS)	OUR ROLE (LEVEL OF INFLUENCE)	OPERATIONAL PLAN SERVICE INDICATOR	OPERATIONAL PLAN TARGET
Undertake a Service Delivery Program of service areas identified under internal audit function.	Finance & Administration	BAU	Deliver	Service Delivery review program has been implemented.	30 June 2026
Undertake a regular review process to ensure all policies are updated when necessary.	Governance	BAU	Deliver	A review process has been implemented.	30 June 2026
Ensure our Council's development assessment systems remain aligned with NSW Planning Portal legislative requirements.	Business Support & Customer Service	Customer Experience Strategy	Deliver, collaborate	Our internal systems meet NSW Planning Portal legislative requirements.	Ongoing
Maintain a best practice internal audit function and Audit, Risk and Improvement Committee in compliance with legislative and regulatory requirements and the Global Internal Audit Standards.	General Manager's Unit	BAU	Deliver	Audit, Risk and Improvement Committee Strategic Workplan has been completed. Annual Internal Audit Plan and Quality Assurance Improvement Plan has been completed.	30 June 2026

# **Financial Assumptions**

The 2025-26 estimates of income and expenditure in this document have been prepared using the following financial assumptions.

#### **General Rates**

Ordinary rates are assumed to increase by the rate peg limit of 4.7%. In addition, Council assumes that there will be an increase in the number of rateable properties of 3.7%.

#### Domestic Waste Management Charges

Domestic Waste Management Charges increase by 8.5% on last year's charge.

#### **Interest Rates**

Interest on new loans of 5% and interest on investments of 4%.

#### Inflation

The 2025-26 Annual Budget has been based on a 3% award increase in salaries and wages. Generally, inflation costs have been applied based on PPI to materials and contracts as per the most recent published data.

#### **Risks**

This Operational Plan incorporates assumptions and judgements based on the information available at the time of publication. Unexpected changes in a range of factors could influence the outcomes in the current and future years.

#### **General Risks**

The economy is a major influence on expected revenues and expenses in any year. The level of economic activity will impact demand for some of Council's services, while changes in inflation rates and interest rates will be reflected in costs Council pays for materials and services and on the return on its investments.

Many of Council's maintenance and construction activities are impacted by the weather; extreme weather conditions can impact priorities and result in programmed works being postponed.

Significant changes in government legislation, particularly in the areas of planning, resource management and local government framework/services, could result in additional costs being borne by Council. Council is a multipurpose organisation, providing a large range of buildings, parks, playgrounds and other facilities accessible to the public, which means it could possibly face insurance claims at any time.

Council is the planning consent authority under the *Environmental Planning and Assessment Act 1979.* Pursuant to that Act, certain persons aggrieved by a planning decision of Council may appeal to the Land and Environment Court. It is the court's normal practice that parties bear their own legal costs, however the amount of any of the costs cannot be known until an appeal is made. On the revenue side, grants are a material component of Council's source of funds and are subject to political decisions by other levels of government.

#### **Specific Risks**

#### Climate

Climate variability is the way climate fluctuates in the short term above or below a long-term average. Common drivers of climate variability included El Nino and La Nina events.

Climate change is a long-term continuous change to average weather conditions over centuries or millennia. Climate change is gradual and, unlike year-to-year variability, is very difficult to perceive without scientific records. Climate change occurs because of changes to Earth's environment, the changes in its orbit around the sun or human modification of the atmosphere.

The Garnaut Report (2008) found that, as a result of past actions, the world is already committed to a level of warming that could lead to damaging climate change. The continued growth in greenhouse gas emissions is expected to have a severe and costly impact on agriculture, infrastructure, biodiversity and ecosystems in Australia. The report concluded that every Australian would have to adapt to climate change for the maintenance of their livelihoods and the things they value.

Climate change will affect rainfall, temperature and sea levels and will have consequences on flooding, soil moisture, bushfire intensity and storm events. It will cause the re-evaluation of Council activities and priorities, as well as significantly impacting on its plans. Council has taken some initial measures to mitigate the broader risk of climate change.

Council's response to date has included initiatives to improve the coordination and effectiveness of Council's response to climate change. However, the extent of climate change impacts on the social and economic wellbeing of our community is yet to be comprehensively assessed.

# Ability to fund asset management

A common issue arising from recent local government reviews has been the shortfall in infrastructure maintenance and renewals expenditure, and how this is able to be funded to ensure that infrastructure is providing the level of service expected by the community. If appropriate asset management processes are not adopted, then assets can deteriorate to the point where agreed service levels cannot be met.

Council has an Asset Management Strategy and Asset Management Plans for the key infrastructure classes of roads, bridges, stormwater drainage, buildings and open space in order to mitigate and plan for these risks.

#### **Development applications**

The revenue estimates for development applications are based on ongoing residential building activity in the local government area and are subject to economic conditions being suitable for activity to continue at planned levels.

# **REVENUE POLICY**

# **Revenue Policy**

#### Rating

In accordance with Section 494 of the *Local Government Act 1993*, Council must make and levy rates annually on all rateable land for which a valuation has been provided by the NSW Valuer-General. Rates must be levied on the land valuations in force as at 1 July of the rating year. Newly created parcels of land which did not exist at the beginning of the rating year are to be valued and unpaid rates are to be apportioned in accordance with the NSW Valuer-General's determination as per Section 573 of the *Local Government Act 1993*.

In 2025-26, Council will levy rates on newly subdivided land on a pro-rata basis from the date of registration of the deposited plan or the strata plan. The amount that is to be raised from rating is calculated to comply with legislative requirements and ratepegging limitations. Together with other sources of income, rating income is used to fund Council's expenditure to implement the programs and levels of service that will, in turn, realise the community's desired outcomes in Cessnock 2040.

#### Rate pegging

The Independent Pricing & Regulatory Tribunal (IPART) determined a rate peg of 4.7% for 2025-26.

#### Methodology

For 2025-26 Council continues to use a rating methodology comprising a base amount plus an ad valorem amount (land value multiplied by a rate in the \$).

The land valuations used to calculate rates for 2025-26 are supplied by the Valuer General and have a base date of 1 July 2022.

#### **Payment of rates**

Ratepayers may pay their rates annually in full by 31 August, or alternatively in four instalments with the following due dates: 31 August, 30 November, 28 February and 31 May each year. Council is required to issue notices one month in advance of the due date.

Council's payment options include:

- Payble self managed payment system
- Telephone payment service
- Direct debit
- Payments at Australia Post
- Credit card, cheque, money order or cash payments at Council Chambers
- BPay
- Centrepay
- Internet payments by credit card via
   Council's website

Interest is charged on rates not paid by the due date in accordance with Section 566 of the *Local Government Act 1993*. The applicable interest rate is set each year by the Minister for Local Government.

Council will adopt the maximum rate applicable as set by the Minister for the year.

#### Statutory Pensioner Rebate

Eligible pensioners receive a statutory reduction of 50% of the combined rates and domestic waste management charge to a maximum of \$250. Council receives a subsidy of 55% of the total statutory rebate.

To be eligible for a full year rebate, the date on which the person becomes eligible must be on the date rates and charges are levied in any rating year. Pensioners who become eligible after the date on which rates and charges are levied will receive a rebate proportionate to the number of full quarters remaining in the rating year after the day on which the person becomes an eligible pensioner in accordance with Section 575 of the Local Government Act 1993. Those pensioners who are uncertain of their status should contact Council for assistance and advice. The granting of the Statutory Pensioner Rebate to eligible pensioners is limited to the current year and previous year only.

#### Voluntary Pensioner Rebate

In addition to the Statutory Pensioner Rebate, Council will grant a voluntary pensioner rebate, which will be 1.6% of the combined rates and domestic waste management charge. This voluntary rebate will apply to pensioners who are eligible for the Statutory Rebate. It will be granted to all eligible pensioners on the same basis as the Statutory Pensioner Rebate for 2025-26. The granting of the Council's Voluntary Pensioner Rebate to eligible pensioners is limited to the current year and previous year only.

#### Categorisation of land

Council has determined that the rates will be applied across seven categories:

- Residential
- Rural residential
- Business
- Farmland
- Farmland mixed use
- Farmland business rural
- Mining

Those properties that are subject to a Mixed Development Apportionment Factor (MDAF) as supplied by the NSW Valuer-General in accordance with the *Valuation of Land Act 1916* are rated as part Residential and part Business on the basis that MDAF are not categorised according to dominant use.

CATEGORY	REFERENCE	DEFINITION

categorised as farmland.

n both rural and business use.

ch has a low density of land utilisation with .

it is a parcel of rateable land valued as one se if for a coal or metalliferous mine.

#### Statement of rates proposed to be levied - Section 405(2) Local Government Act

Rates are assessed by levies on the value of land. Land values are determined by the Valuer General. Increases in rates are in line with the rate peg determined by the Independent Pricing & Regulatory Tribunal (IPART).

#### **Rating Structure**

The NSW Government introduced rate pegging in 1977. Each year the NSW Government approves a maximum percentage increase in the total income a council can receive from rates, known as the rate peg. In 2024-25, the rate peg has been determined by IPART at 4.7%

RATE TYPE	CATEGORY	SUB-CATEGORY	AD VALOREM AMOUNT: CENT IN THE \$	BASE AMOUNT (\$)	BASE AMOUNT AS % OF TOTAL RATE	RATE YIELD (\$)
Ordinary	Residential		0.260060	430	30.09%	37,658,019

Ordinary	Mining		4.717039	1,500	0.45%	1,682,615
Total						\$54,694,636

#### Charges

#### Waste charges

Weekly services for kerbside collection of mixed solid waste (red bin), food and green organics (green bin) with fortnightly collections for recyclable waste (yellow bin) are provided by Council to residential and non-residential properties in the Cessnock Local Government Area.

#### Note:

At the time of publishing the Council has its Draft Waste and Resource Recovery Strategy 2026 -2031 on exhibition. The final strategy is not likely to be adopted by Council until June 2025. Should the Council determine to change any of the proposed collections, there would be a change in the domestic waste charge. Accordingly, the charges below are indicative based on the proposed collections as per the draft strategy as outlined above yet subject to change.

Where new services are commenced throughout the year, charges are calculated as a proportion of the annual charge.

Under Section 496 of the Act, Council is required to levy a charge on all rateable land that is situated within the area in which a domestic waste management service is available, whether occupied land or vacant land.

The *Local Government Act 1993* Section 504(1) provides:

 A council must not apply income from an ordinary rate towards the cost of providing domestic waste management services

- Income to be applied by a council towards the cost of providing domestic waste management services must be obtained from the making and levying a charge
- Income obtained from charges for domestic waste management must be calculated so as to not exceed the reasonable cost to the council of providing those services.

Sections 501 and 502 permits a council to make and levy an annual charge for the following services provided on an annual basis:

- Waste management services (other than domestic waste management)
- Any services prescribed by the regulations

#### Domestic Waste Service Charge (vacant)

Under the provisions of Section 496 of the Local Government Act 1993 vacant rateable land categorised for rating purposes as residential or farmland and situated within an area in which a domestic waste management service is able to be provided is to be charged a Domestic Waste Management Service Charge - Vacant.

#### Domestic Waste Service Charge

This service entitles the property to a single weekly collection of mixed waste, a single weekly collection of food organics/garden organics material, and a single fortnightly collection of recyclable material, all using approved mobile containers as provided by Council and a single fortnightly collection of recyclable material and garden organic material using approved mobile containers as provided by Council. For 2025-2026 each service includes the issue of four (4) waste vouchers and eight (8) recycling vouchers to be used at the Cessnock Waste Management Centre. Each voucher allows 250 kilograms of domestic or general household waste or recycling. If the quantity exceeds 250 kilograms per disposal, additional vouchers may be used, or a fee will apply. Material disposed using vouchers is to be transported in passenger vehicles, utilities or small trailers only.

#### Additional Domestic Waste Service Charge

Under the provisions of Section 496 of the Local Government Act 1993, further to the domestic waste management service charge, an additional domestic waste management service charge applies to each additional weekly collection of mixed waste, using an approved mobile container as provided by Council.

#### Additional Domestic Waste Service Charge – Recycling & Garden Organics

Under the provisions of Section 496 of the Local Government Act 1993, further to the domestic waste management service charge, an additional domestic waste management service charge – recycling/ garden organics applies to each additional fortnightly collection of recyclable and garden organic material, using approved mobile containers as provided by Council.

#### Waste Management Service Charge

Under the provisions of Section 501 of the *Local Government Act 1993*, a waste

management service charge applies to each parcel of land not categorised for rating purposes as residential or farmland to which the service is provided.

This service entitles the property to a single weekly collection of mixed waste, a single weekly collection of food organics/garden organics material, and a single fortnightly collection of recyclable material, all using approved mobile containers as provided by Council.

#### Additional Waste Management Service Charge – Recycling & Garden Organics

Under the provisions of Section 501 of the Local Government Act 1993, further to the waste management charge, an additional waste management service charge applies to each additional weekly collection of mixed waste, using an approved mobile container as provided by Council.

#### Stormwater charges

Under the provisions of Section 496A of the *Local Government Act 1993,* Council may make and levy an annual charge for the provision of stormwater management services for each parcel of rateable land for which the service is available. A stormwater service is a service to manage the quantity or quality, or both, of stormwater that flows off land, and includes a service to manage the re-use of stormwater for any purpose.

In line with the Stormwater Management Guidelines, Council proposes to levy a charge calculated at \$25.00 per 350 square metres (or part thereof) up to a maximum charge of \$500.00 on business properties located within the defined stormwater area. Residential properties within the defined stormwater area will continue to be charged at the fixed charge of \$25.00 per property in line with the Stormwater Management Guidelines. Residential strata properties will be charged a fixed charge of \$12.50 per property in line with the Stormwater Management Guidelines.

#### Statement of charges proposed to be levied – Section 405(2) *Local Government Act 1993*

The proposed charges for 2025-26 are:

CHARGE	2025-26
Domestic Waste Management Service Charge - Vacant	\$88.00
Domestic Waste Management Service Charge	\$767.00
Additional Domestic Waste Management Service Charge	\$767.00
Additional Domestic Waste Management Service Charge – Recycling	\$98.00
Additional Domestic Waste Management Service Charge – Organics	\$196.00
Waste Management Service Charge (Commercial)	\$909.00
Additional Waste Management Service Charge (Commercial)	\$909.00
Additional Waste Management Service Charge (Commercial) – Recycling	\$98.00
Additional Waste Management Service Charge (Commercial) – Organics	\$196.00
Stormwater Management Service Charge – Residential	\$25.00
Stormwater Management Service Charge – Residential Strata	\$12.50
Stormwater Management Service Charge – Business	\$25.00 per 350 <sup>m2</sup> or part thereof up to a max \$500

#### Hunter Catchment Contribution

Council includes on its rate notice a catchment contribution collected on behalf of Hunter Local Land Services.

Catchment contributions are collected under Clause 40, Part 4, of the *Local Land Services Regulation 2014*, with the Local Land Services setting the rate in the dollar each year.

Contribution is to be applied for the financial year and shall be the rate gazetted by the Minister.

# Statement of proposed borrowings

Council borrows funds each year to provide long-term assets and facilities that are unable to be funded out of recurrent revenues.

Council invites quotes for the provision of loan funds from lending institutions. All loans are secured by a mortgage deed taken over Council's general revenue and are normally taken over a 10-year period or for the economic life of the asset acquired, whichever is the shorter. In 2025-26, Council proposed borrowings are \$5.525m for:

- Landfill construction \$2,000,000
- Bridge replacement \$3,525,000

#### Goods and Services Tax (GST)

Council applies various fees, charges and fines. The GST status of these will depend on whether there is consideration for a supply.

Where previously some fees and charges have been exempt from GST in accordance with the Federal Treasurer's Determination under Section 81-5 of the *New Tax System (GST) Act 1999*; from 1 July 2012 these fees and charges have been assessed under the principles based regime to determine if their GST exemption status remains.

Fees and charges subject to GST are identified by a "Yes" in the GST column of the 2025-26 Schedule of Fees and Charges.

A copy of Council's adopted Schedule of Fees and Charges is available for information at Council's Administration Centre or at Council's website: <u>www.cessnock.nsw.gov.au</u>.

#### **Fees and Charges**

Council provides a wide range of services to the community and has adopted a number of fees and charges. Each charge or fee is reviewed annually and determined based on one or more of the following criteria:

Nil Cost Recovery: There is no charge for these types of items. All costs
 associated with this item are met from either general revenues, grants, contributions or various combinations of same.

Minimal Cost Recovery: The price for these is set to meet a small contribution
 B towards the cost of the item. The majority of the cost of this item is met from either general revenues, grants, contributions or various combinations of same.

**C** Majority Cost Recovery: The price for these items is set to make a substantial contribution towards the cost of the service.

**D Full Operating Cost Recovery:** The price for these items has been set to cover the operating cost of providing the item.

Full Cost and Partial Capital Cost Recovery: The price of these items is set
 to recover annual operating costs and make a contribution to the cost of replacement of the infrastructure assets utilised in providing the item.

**F Regulatory Fees:** The price charged for these items is a statutory charge set by legislation.

Market Competitive: a) The service provided is in competition with that provided by another council or agency (private or public) and a price is set which will attract adequate usage of the service; and/or b) the service is a profit-making activity and the price paid by users should recover an amount greater than the full cost of providing that service

G

# **Fees and Charges**

#### Separate document

In accordance with Section 608 of the *Local Government Act 1993* and other relevant legislation, Council levies a range of fees and charges.

Council considers possible future income from fees and charges, including opportunities to reduce reliance on other forms of income.

In determining fees and charges, Council ensures all the costs of providing services have been considered. The planning process includes an assessment of the community's capacity to pay and any potential for that capacity to change. Income from fees and charges assists Council with providing services and facilities within the Local Government Area.

Fees and charges are intended to cover costs associated with supply of a product, service or commodity giving of information providing a service in connection with the Council's regulatory functions, including receiving an application for approval, granting an approval, making an inspection and issuing a certificate allowing admission to any building or enclosure.

Council reviews all fees and charges, not subject to statutory control, on an annual basis, prior to finalisation of the annual operating budget.

# **ATTACHMENT A**

# **OUR CAPITAL** PROJECTS

# **Our Capital Projects**

#### **General Definition**

Capital Projects consist of projects that build new community infrastructure. They can include road improvements such as resurfacing or intersection upgrades, shared pathways, drainage improvements, asset renewal works, playground upgrades or replacement, new facilities such as sports amenities and libraries, and environmental projects such as erosion control and bank stabilisation.

#### **Asset Management Prioritisation**

The Asset Management Prioritisation programs have been developed to bridge the gap between current/historic funding levels and the community's desired level of service. It targets assets or asset components that are falling under this service level, and brings them back in-line with our community's expectation.

#### **Capital Program Definitions**

#### Cemeteries

Our Cemeteries program aims to renew and upgrade our local cemeteries and associated assets. Example projects can include - new internment options, fencing, access improvements, signage and general cemetery upgrades. The program also implements projects identified in adopted masterplans and asset management plans.

#### Infrastructure Contributions Planning

This program identifies a levy for public amenities and services required as a result of development under the *Environmental Planning and Assessment Act 1979* (EPA Act).

It includes contributions imposed on developments under section 7.11 and section 7.12 of the *Environmental Planning & Assessment Act* (the Act).

#### Drainage

Our Drainage Program is designed to improve drainage systems by modifying, repairing, and replacing drainage infrastructure and stormwater channels. Catchment studies, condition assessments and customer requests determine the works and also improve environmental issues such as detention and water quality. The program also implements projects identified in adopted masterplans and asset management plans.

#### Pathways

This program includes building new **pedestrian** and **shared pathways** including **cycleways**, as well as construction in older areas where current standards now require them. It also includes renewals based on an adopted risk management monitoring process, as well as reactive pathway repairs performed under routine maintenance allocations.

#### Administration Equipment & Systems

This program ensures that we provide appropriate buildings, equipment and systems to support our council's operations. As custodians of council operations these enhancements enable our council to operate at an acceptable level of service.

#### Buildings

Our Buildings Program aims to renew and upgrade our Council-owned community and cultural buildings and facilities. Projects can include, flooring renewal, painting, kitchen upgrades, roof and bathroom upgrades. The program also implements projects identified in adopted masterplans and asset management plans.

#### > Town Centres

Our Town Centres program aims to forward plan for our growing city and ensure it is supported by appropriate infrastructure and open space embellishment activities which are not funded by contributions plans.

#### > Floodplain management

Our Floodplain Management Program utilises current flood studies and ongoing investigations to implement flood management techniques or infrastructure. The program also implements projects identified in adopted masterplans and asset management plans.

#### Roads

Our Roads Program includes:

**Road Renewal** - where the pavement is approaching the end of its lifespan, rendering rehabilitation impractical, as well as roads in need of upgrades to meet appropriate standards. **Road Rehabilitation** - where we renew roads by fixing their surfaces, correcting any deformities, and making the pavement stronger and when a reseal is no longer feasible.

*Gravel rehabilitation and resheeting* - which covers cracks and prevents water from entering the pavement. Timing is critical and typically the treatment is applied before noticeable pavement deterioration.

#### > Fleet Management

Our fleet management program involves management and maintenance of our fleet of commercial vehicles and includes vehicle acquisition and disposal, maintenance and repairs of existing vehicles, fuel management, technological efficiencies and regulatory compliance.

#### Other Open Space & Recreation Assets

These include major repairs, rehabilitation or replacement of recreation facilities and supporting infrastructure. Projects include playground equipment, fencing, floodlights, amenities and playing surfaces.

#### Tourist Connections & Services

Our Tourist Connections & Services program aims to forward plan for, and manage the growth of our visitor economy, to ensure opportunities are fully capitalised on.

#### > Waste Management

Our Waste Management program includes waste services provided by our Council to the community and includes domestic waste management services, commercial waste services, Cessnock Waste Management Centre and environmental waste.

#### Other infrastructure

*Airport projects* – includes items which further its development as an aerodrome business hub that works with and contributes to the economic growth of the region.

*Car Park Renewals* - Allocates funding to extend the life of public car parks throughout our area may be included in works such as a stronger wearing surface, additional drainage, and pathway access.

#### Libraries

Our Libraries program aims to improve, upgrade and renew our local libraries. Example projects can include – book purchases, equipment and furniture upgrades.

#### Bridges

Our Bridge Program is determined from an inspection and testing regime to minimise structural deterioration and improve the overall condition of the existing bridge stock. Typical activities include major repairs, rehabilitation, and replacement of components such as guardrails, girders, joints and decks. In addition, Council bridges are gradually being upgraded or replaced when required.

#### > Aquatic facilities

Our Aquatic Facilities Program improves, upgrades and/or renews assets associated with Council's aquatic facilities. Projects within this program include renewal and upgrade to plant & equipment, building infrastructure and supporting infrastructure such as new park furniture, fencing and grandstand improvements. The program also implements projects identified in adopted masterplans and asset management plans.

#### Traffic Facilities and Road Safety

Our Pedestrian Access Mobility Program

(PAMP) - is developed from several sources including recommendations in the Plan, requests to Council from customers and councillors, consideration of the Disability Inclusion Action Plan (DIAP).

#### Our Traffic Facilities and Road Safety program

- includes investigation, development, consultation with Transport for NSW where required, and delivery of pedestrian facilities, line marking, traffic control devices, road safety projects, local area traffic management schemes, bus stop infrastructure, as well as operational management of street lighting in conjunction with Ausgrid.
